Subtotal	USD 26.60
VAT at 19.00%	USD 5.05
Total	USD 31.65

Balance Due

The tax and any recurring charges, on this invoice, will be deducted from your Vonage account balance **on or after seven days from the date of this document.**

Please ensure you have sufficient credit on your account to cover these charges. Should you have insufficient funds, our communication API services will automatically suspend until your accounts balance is settled. We recommend customers utilise our low balance notification tools within your Vonage API Dashboard, as well as our auto-reload capability to enable top-ups to take place when your account balance drops below a determined value. For customers with auto-reload enabled, please ensure your top-up threshold and top-up value are sufficient to cover the taxes due, otherwise an additional top-up via Credit Card, PayPal, or Bank Transfer may be required.

To top-up your account, please visit your Customer Dashboard. You can find additional information about these account charges in our Support Knowledge Base.
